

MEDIAWORKS®

THE WORKS FOR MULTIMEDIA AUTHORING

Description: Affordable cross-platform, easy-to-use multimedia "works" program, including a sound editor, paint and simple photo editing program, cel animation program, video editor and authoring/presentation tool. Like having "lite" versions of Flash®, SoundEdit® Pro, Adobe® Premiere®, and Photoshop® all rolled into one.

Uses: Slide shows, web movies, videos, presentations, reports, portfolios, yearbooks, staff development training, project-based learning, resumes, family histories, scrapbooks, vacation memories, and interactive data CD/DVDs.

Awards: Macworld Magazine - 4 stars, PC Magazine - 4 stars, Presentation's Magazine - "Best Budget Multimedia Authoring tool".

District Adoptions: Lincoln, Nova Scotia, Houston, Las Vegas, Anaheim, Naples and more!

Product Configurations: Mac/Win hybrid CD in box with printed Tutorial booklet. Lab Packs: 2-CDs/1 Doc, 5-CDs/1 Doc, 10-CDs/1 Doc, 25-CDs/1 Doc, and 100-CDs/4 Docs. All Lab Pack documentation includes printed Tutorials and Menu Reference in 3-ring binder.

Requirements – PowerPC or Intel based Macintosh or 200 MHz or faster PC, Mac OS X 10.2 or better, Win98 or better: 128 MB of RAM.

File Formats Supported: All file types supported by QuickTime..

Distribution Options:

Linear Projects - export as exported as a variety of industry standard formats - .mov (QuickTime), .avi (Windows Media Player), .dv (consumer DVD player), .mp4 (web), .m4v (iPod) and others

Interactive Projects (presentations) - Entire project is saved to **ONE** file called a MediaWorks Player document (.plr) and may be played by the free Mac and Win Player applications. Win Player opens both Mac and Win .plr files. Mac Player opens only Mac .plr files.

Key Benefits:

- Easy-to-Use - learn in 2-hours with included tutorials.
- Powerful - multi-track, time-based Sequencer window.
- Comprehensive - editors for video, paint/photo, cel animation & sound included.
- Fast - Object-oriented for easy and fast screen composition and alignment.
- Extendable - link to URLs or other files.
- High Quality Productions - unique QuickTime-based architecture decompresses photos, narration, music, and videos on the fly.
- Affordable - No other software required - as low as \$30 in quantity.
